

THORNDOWN

Sustainable paint resin from recycled car windscreens

01

Car windscreens
& laminated building glass

02

Glass recycling

03

Separation

04

Cleaning

05

Recycled
plastic resin

Reuses laminated glass
that would go to landfill

Non-toxic, minimal VOCs
- no chlorine or
phthalates

Lives up to the future
standards of the industry

Very flexible and
durable for hard
wearing paints

Fully recyclable after
use to re-enter the
circular economy

Backed by consumer
trends towards more
sustainable products
